ABOUT ME

My name is Ayinmiro Tobi I'm a full stack developer and a graduate of the Federal university of technology minna with a B.Tech in computer Science and over four years experience, I make scalable, responsive and secure web and mobile solutions that meet my clients need, contact me and let's bring your business ideas to life.

EDUCATION

B.Tech (Computer Science) **Federal University of Technology Minna**

SOFTWARE SKILLS

Languages & Frameworks

JavaScript (ES6+), TypeScript, React.js, Next.js, Express.js, GO, Python, React Native

Styling & UI

HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI, Sass, Shadcn

State & Data Handling

Redux Toolkit, REST API Consumption, Async/Await

Performance & Quality

Responsive Design, Cross-Browser Compatibility, SEO Optimization, Accessibility (ARIA), Web Performance Optimization

Tools & Deployment

Git, GitHub, Vercel, Netlify, Render, Docker, Supabase, Firebase

Database & ORMs

Postgres, MongoDB, SQL, NoSQL, mongoose, Prisma

Communication

Slack, Discord, Odoo, Whatsapp, Google meet, Clickup

WORK EXPERIENCE

Fullstack Developer - Orion Industrial Resources Limited (Onsite) 2024

- Developed modern, responsive user interfaces using React, Next and other technologies.
- Converted Figma UI designs into interactive, pixel-perfect web pages.
- Collaborated with backend developers to integrate APIs and deliver complete application features.
- Maintained consistency across pages by developing reusable components and adhering to design standards.

Full Stack Developer - GS Tech Hub (Remote) 2025 – 2026

- Worked on three major products, including a crowdfunding investment platform, the crowdfunding investment admin dashboard, and the company's official website.
- Performed multiple codebase refactors to ensure improved performance
- Documented features, technical implementations, and development workflows to improve knowledge sharing.

FullStack Developer - Neominds (Remote) 2026

- Built scalable backend services and RESTful APIs to support frontend functionality.
- Integrated frontend applications with backend services and third-party APIs.

- Debugged, tested, and resolved software issues to improve application stability and performance.

Full Stack Developer - Learn2Earn (onsite)

2025 – 2026

- Collaborated with fellow developers on programming projects.
- Participated in regular technical assessments, code reviews, and performance evaluations.
- Strengthened problem-solving, debugging, and analytical skills through real-world programming exercises.

Full Stack Developer - Freelance (Remote)

2022 – 2026

- Designed, developed, and deployed custom web applications for clients across multiple industries.
- Integrated third-party APIs, authentication systems, payment gateways, and cloud-based services.
- Managed projects from planning to deployment while meeting deadlines and maintaining high-quality standards.

CORE COMPETENCE

- Problem Solving
- Team Collaboration
- Continuous Learning
- Attention to Detail
- Communication
- Adaptability

KEYWORDS

Full Stack Developer, Software Engineer, JavaScript, React, Node.js, REST API, PostgreSQL, MongoDB, Web Development, Agile, Git, Cloud Deployment
